Dog River Watershed Clean-up April 28th **2012 Mobile Great American Cleanup**

For the past 24 years, Keep Mobile Beautiful (KMB) has organized local community groups, civic organizations and individuals in a local Great American Cleanup. The GAC is the nation's largest organized annual cleanup, beautification and community improvement program.

PEP, Envision Coastal Alabama, Mobile Gas, Alabama Power, Hands On South Alabama, Associated General Contractors and many others have joined forces with KMB to help recruit new volunteer teams and to expand the community cleanup opportunities, including a key event focused on cleaning up littered portions of the Dog River Watershed.

Join PEP members and many other volunteers on April 28 to clean up Dog River Watershed litter hotspots. We will check-in at a central location near Springdale Mall and then go to our assigned areas around Eslava Creek and other spots that send trash and debris straight into Dog River with every major rainfall. After the Cleanup join area volunteers at the Community Cleanup Celebration.

If your company is interested in participating please contact Jennifer Denson by email at jdenson@pepmobile.org or 251-345-7269. You can participate as a company, a group, or an individual. We will certainly run out of volunteers before we run out of litter!

Help PEP staff, Board and members:

Cleanup Mobile, One Neighborhood At a Time!
